Sir

The proposed change would entail an extra cost of Rs 3120 per annum. I stated that inspection work is sure to suffer if the Dy Insp. is saddled with the work which has hitherto been done by the Taluq ests. There objection seem fatal & the suggested change

against the present
system as summarised
in para 3 of the
Govs letter it may
be submitted that
if the number of
Noble scholrs has
increased during
recent years, the

of pay bills &
other matters of detail

Vide my marginal note

The present system has been in force for more than 4 yrs. The present charge is no doubt demoralised but, on financial grounds, it cannot be considered at present ~~and should be retained~~ as a ~~bad~~ case as Rs 3120 a year.

The Talukdars have been strengthened recently too deeply so the work of all the branches including the superintendence of Hobli Schools has not been touched and carried on. I am therefore ~~not~~ in favour of the existing system

Note (contd on receipt of letter no 4370 C from the Comptroller, Mysore last

The orders of the then 1st councillor, now officiating Dewan were communicated to the I & C, Comptroller and the Deputy Commissioners of Districts (vide overleaf)

The chief objections to the present system as urged in sl no 1 as well as by the Comptr. by the I & C were —

'(1) that the work devolving upon the Taluk was 'heavy' and hence a "source of much inconvenience and trouble" (2) The delay under the present system was also urged against it The order passed in serial no 2, pointed out how the above objections could be avoided

The Comptroller in his present communication shows how the present system is against the Codal Rules

The change once recommended for favourable consideration, if sanctioned, would entail an additional cost of Rs 3120 per annum

the Comptroller urges
a new reason which
he had not urged

are returned by them
to the Auditor on the
ground that the School

difficulty arises in

I regard to such
undisbursed pay
as it cannot be re-
funded by shortdraw

can the amount be
credited to "deposits"

Rs 3120 for merely preparing the Pay bills & returns seems a large sum, and it does not seem impossible to provide for the difficulties urged without reopening the matter once decided again

The technical diff of deposn

pay being irregular ap-
plies only to cases in
which the Sekdars not
funding the men have to
return the Pay to the Taluk.
These cases cannot be
many and I do not see
why they should not be
made admissible as depos-
sits by special rule In
fact, in the absence of
such practice, some Sek-
dars as I occasionally dis-
covered had kept money
& probably appropriated it
for long periods without
accounting therefor

The 2nd difficulty re-
fers to proper notices of
fines, absence & other
causes of disallowance
not being intimated in
time for the Paybill Thus
may be obviated by
[illegible]

sent to each auth before the 5th of each (succeeding) month. The pay bill may be drawn between that & the 10th. The difficulty of delaying the pay of Governmen does not really arise if the interval of a month is not exceeded, as there is no special charm in the 1st day of any month.

If approved, the C. & I. Ry may be requested to adopt this course or to state why it should not be considered as adequate, & if preferred a final order may be issued to that effect closing the controversy.

2. Docket No.8951/391 dated 10th April 1901 from the Inspector General of Education in Mysore.

(to be printed in extenso)

Order thereon No.

Dated Bangalore, April 1901.

In the opinion of Government it is possible to meet the difficulties urged against the present practice without sanctioning an additional and costly establishment. It is no doubt irregular according to present rules to [illegible] it [illegible] pay to "Depos[illegible] But [illegible] have to be done only

only in those cases in which the Sekdars, not finding the Hobli School Masters, have to return the pay to the Taluk Treasury Such cases cannot be many, and Government see no reason why, in those cases, the undisbursed pay should not be credited to "Deposits" by laying down a special rule to that effect In fact the absence of such a rule gives room at present to these Sekdars to keep the money with them longer than necessary and sometimes to appropriate it without accounting therefor The 2nd objection raised against the present practice that timely intimations of fines, absence, and other causes of disallowance are not given to the Amildars, can be met by directing that such intimations or a report that no deductions &c , have to made, should be sent to each Amildar before the 5th of each (succeeding) month The pay bill may be drawn between the 5th and the 10th The objection of delaying the disoursement of the pay of poor School Masters beyond the usual period does not really arise, if the interval of a month is systematically observed between one payment and another

2 The Inspector General of Education and the Comptroller are requested

requested to adopt the above course or to explain why it should not be regarded as adequate, and suggest an alternative course which would not involve any additional expenditure on this account.

Submitted to the Diwan

In order to meet the difficulty of satisfactorily arranging for Parts of Salary to Village School Masters, a scheme was suggested and subsequently modified that instead of the Taluk Offrs drawing the pay on barawards prepared by themselves, these docts should be prepared at the office of the Dy Inspr Concerned. The additional Cost would be as stated by the Inspr, 1440 Rs at 1 Clerk on 15 Rs for each Dy Inspr. But as the I.G has lost sight apparently

of two Dy Inspᵗˢ (Dy Inspᵗˢ and Asstt Dy Inspᵗˢ in independent Charge) and with a clerk for each of them, the additional annual expenditure would come to 1800 Rs

The last govt order declining to sanction additional Estt was passed in Decr 1899 (Sl no 2)

The draft proposed that the same practice as hitherto should be continued with some modifications, but the 2nd Cl Conducts that the additional establishment may be sanctioned

Preparation of Hobli School Bills

The necessity for the Treasury staff relieved of the duty of preparing the bills of the Establishment of the Hobli Schools so clearly established in the Dewan's Confidential File (returned herewith) and the only reason assigned for not carrying out the proposal, is the financial one, that as the cost of the clerks proposed to be employed is Rs 1,440 only per annum, there can be no difficulty in sanctioning it; as no doubt the Inspector General will carry out the Govt orders to reduce the present expenditure

I may add that the Government of India consider it highly objectionable, as a matter of principle, that the Treasury Staff should take any part in the preparation of bills for other than the Treasury Establishment

OFFICE OF INSPECTOR GENERAL OF EDUCATION IN MYSORE,

No 4543/187 Secl 2 ~~Mysore~~, Bangalore, 16 Nov 1897.

From

H J BHABHA, Esq,
Inspector General of Education in Mysore

To

The Secretary to the Government of Mysore,
General and Revenue Departments,
Bangalore

SIR,

I have the honour to submit for the favourable consideration of Government a proposal made by the Comptroller for modification in the present system of disbursing pay to masters employed the Hobli Schools in the Province

2 In accordance with the Circular No 1093 dated 7th March 1874 issued by ~~Govt~~ H. to the Treasury Officers & subsequent Circulars to 1890 issued by

the auditors increase [illegible] Abstracts for all
the masters of the Public Schools & their
table to and increase [illegible] of the Masters
through the Stockholders
& the Comptroller to be that through
in the early years of the existence of Public
School education, the work was not for a
heavy as the number of schools was then
small, it has since become very heavy
and a source of much inconvenience
and trouble He objects to the present
arrangement on the following grounds

(1) that the four clerks under the
Auditors can not in addition to their
own work maintain a correct scale
create and prepare requisitions rolls,
accurately making at the same time a careful note of
the intimations of appointments, pro-
motions, transfers, dismissals, fines,
leave &c

(2) that the intimations of changes
do not reach the Auditors in time.

(3) that consequently the Teachers
all said masters are kept out of
their full allowances for months

(4) that the law

(5) that as the pay and other bills are not prepared according to Auditor's rules, much unnecessary work is thrown on his office -

It for these reasons the Comptroller thinks that the present arrangement for the disbursement of pay to Noble Masters should be discontinued and proposes that the Safety Inspectors should be charged with the work of preparing the pay abstracts of all Noble Masters in their district or circle, as they keep a complete record of all the changes ordered in the Department He suggests that each Safety Inspector should prepare one bill for all the Noble Schools in each Talk within his jurisdiction and send it to the Auditor of the Talk on the last day of the month for which the pay is due A copy of the bill will be sent to the office of the Inspector concerned. On receipt of the bill from the Inspector the Auditor will

I do not see how it can be done in addition to the present number of Circulars & other important duties now devolving on the Inspectors

a receipt obtained from the Cashier to the Deputy Director instead of taking them in his own office the Inspector General and the Deputy Inspectors are under the proposed arrangement to be held responsible for any excess or irregular payments, and the Controller will accordingly communicate the result of his audit of the monthly bills to the Inspector General for needful action

5 I agree in the main with the Controller in the views expressed by him regarding the disadvantages of the present system and the K with him that a change in the direction pointed out by him will improve matters I am however unable to see my way to the same such heavy and irreconcilable [illegible] K on the Deputy Inspectors whose present office establishment is already overworked On receipt of the Controllers proposal, I circulated it to the Deputy Inspectors for an expression of their opinion They unanimously concurred that there

considerably increased during the last seven years, that it is still increasing from year to year, and that there 3 office establishment working both in and out of office hours, is inadequate to the work they have to perform at present while expecting their colleagues to undertake the additional work contemplated to be taken on this, they urge the necessity for strengthening the clerical staff under them

no extra hours in really suitable for girl

I have no doubt that the clerical staff of the office of the Postal Inspectors is entirely under manned but made hard and that it cannot bear the additional strain which will be put upon it by the contemplated change That a severe strain will be put upon their office notable in it will be evident from the fact that the work which under the existing ar-

I am each I perform her related Duty that in default of performance by her of her duties and by each shall

It is doubtless [illegible] money orders will return to the

touring in their districts through the greater part of the year when the duty Inspectors are required to do the work, they will have to maintain in their office (1) a Scale register, (2) a register of monthly payments to which should contain all the columns, with the particulars filled in, which are found in the Pay bill form, (3) a register of Insured officials and Pensioners payable by them, and (4) to prepare lists of allowances to be forwarded with the pay abstracts. The lists of above two will have to contain full details of leave, leave allowances and acting arrangements. The maintenance of the registers referred to and the preparation of the pay bills with the slates to which should accompany them and of the supplemental bills for arrears of pay, the issue of last pay certificates when Inspectors are transferred, the necessity to ascertain beforehand the dates on which charge is given over or assumed, all these entail much clerical labour and great responsibility

on the clerks of the Deputy Inspectors and require careful scrutiny at every step. The onerous nature of the work may be judged from the number of Hobli schools in each District

7 Under the above circumstances I request that Government may be pleased to sanction an additional amount of Rs 25 for each of the 8 Deputy Inspectors' offices at a cost of Rs 2400 a year. The single writer given to each Deputy Inspector is the only intelligent man in his office that can be entrusted with the responsible work of preparing the long abstracts and he has to accompany the Deputy Inspector almost constantly on tour not only to carry on the Deputy Inspectors correspondence with the Inspector General

Reports to be sent up the Inspectors
Reports then deliver. At the end of
the year the Deputy Inspectors and
Clerks may be far away from
the Inspectors or the district village
until duly postal communication
of the extra work proposed be thrown
on the Deputy Inspectors and his present establishment. Inspectors work is sure to
rather arrest will be necessary for the
Deputy Inspectors and his head clerk to
be at Headquarters for several days
after the proclamation of the bills
and the amendments of the registers
returned to

At present no account is kept
of the monthly disbursements to Hobl
Postal Masters in the office of the
Director General. The Auditor of each
Circle examines this office at the
end of each official year with a
statement of expenditure incurred
during the year on account of
Postal Works in his Circle. But

when the arrangement proposed by the Comptroller is brought into operation it will be necessary to keep accounts of the monthly expenditure on these schools in the Inspector General's office in order that the monthly disbursements made on the bills of the Deputy Inspectors may be carefully scrutinized. Moreover as the Comptroller proposes to hold the Inspector General responsible for irregularities and excesses in payments to Hobli Masters it will be absolutely necessary to check all payments made by the Deputy Inspectors in this office. The additional work thrown on my office will mean the scrutiny of payments to 1591 Hobli Masters and the maintenance of scale registers. I request therefore that two additional hands each on Rs 30 may be sanctioned for the office of the Inspector General there will thus be required 10 additional all and the cost will be

Pay of Hobli School Masters.

To- Officers in charge of District Treasuries and Amildars of Talukas, Circular No 1093 dated 4th March 1874.

In supersession of existing practice, the Amildars of Talukas are requested to be good enough to prepare a monthly bill showing in detail the name of every Hobli schoolmaster in the Taluk, the name of the Hobli and the rate of pay as instructed to him by the officer in charge of the District Treasury, with a blank column in which he will take the receipts of the Sheikdars or other officials through whom the pay is disbursed. The Amildar will sign the bill at foot and charge each payment as it is made in his C accounts. When all the payments are made by the Amildar, not later than the 10th or 15th of the month, he will send the bill to the District Treasury as a voucher.

2 The Amildar will keep a duplicate of the monthly bill in a book, taking the receipt of each Sheikdar thereon, and as a check on those officials the Amildar will not disburse the pay for any month until the Hobli school ~~is in a state~~ by the Sheikdar ment the receipts

Proceedings of the Government of Mysore, Education, dated 5th December 1899

READ—

Letter No 4543—287 dated 16th November 1899 from the Inspector General of Education submitting for favorable consideration a proposal made by the Comptroller for modifying the present practice of disbursing pay to Hobli School Masters through the Amildars of the Taluks in which they are employed

---

No 6487 96—ED 233, DATED BANGALORE, 5TH DECEMBER 1899

ORDER THEREON—The proposed change is no doubt desirable, but as it would entail an additional cost of Rs 3,120 per annum, the Government feel constrained on financial grounds to defer its consideration for the present The existing system, which has been in force for more than 24 years, should therefore be continued and the Inspector General will be so good as to see that intimations of changes among Hobli School Masters are given to Amildars in time, and bring to the notice of Government delays, if any, on the part of the latter in disbursing their pay The Taluk Establishments have been strengthened recently, and in doing so the work of all branches, including the preparation of pay abstracts, &c, of Hobli School Masters has been duly taken into consideration Amildars are, therefore, expected to guard against undue delay

Sir,

I have the honor to bring to notice that it not frequently happens that portions of the pay of Hobli masters made over to Hobli Shekdars for disbursement, are returned by them to the Amildar on the ground that the School masters have gone on leave & the latest instance being that reported in correspondence ending with No 134 dated 20th December 1900 from the Deputy Commissioner Treasury Department Mysore

2 Under Codal rules such undisbursed pay are required to be refunded by shortdrawal from the next bills and redrawn on separate supplementary bills when the absentees return to duty but this procedure cannot be followed under the present system of payments to Hobli School masters

3 The only other course open is to have such undisbursed pay credited to Deposits and redrawn on simple receipts and disbursed to the absentees on their return Even this course is opposed to Article 247 (a) Civil Account Code Volume I 5th Edition, which prohibits pay, pensions or other allowances being placed under Deposits

The irregularity now brought to notice would have been obviated had the suggestion made in letter No [illegible] 7th September 1899 to the Inspector General of Police, but Government in Proceedings No [illegible] dated 5th June 1899 are not prepared to authorise the amount indicated in

existing system of disbursing the pay of Hobli masters to be continued

I bring the matter again to the notice of Government with the hope that the question may be reconsidered and further orders of Government obtained

I have the honor to be

Sir

Your most obedient servant

With reference to the Secretary's docket No 11313 / Ed 413 dated 7th March 1901, has the honour to inform that the Comptroller's letter No 4370 dated 19th February 1900 to the Government was written on a reference made to him by the Amildar of Tirumkudlu-Narsipur about the mode of entering in the accounts the pay of a Hobli Master returned to the Treasury by the Sheikdar, when the Sheikdar has not found the Hobli Master at his post The question raised by the Amildar was a general one and he has not given particulars of any specific case

2 Intimation of changes among Hobli

sters is always given to the Amildars by the Deputy Inspector of the District but it may happen especially if the changes take place towards the end of the month that such intimation does not reach the Taluk Treasury before the previous month's pay is sent out for disbursement through the Sheristdar In such cases it has to be returned to the Treasury or kept with the Sheristdar. If the procedure of disbursement suggested in the Comptroller's letter No 1231 X C-1 357 dated 4th September 1899 is adopted no doubt such refunds as the above would be obviated But the Comptroller's suggestion can not be carried out unless Government can give an additional writer on Rs 15 to each of the Deputy Inspectors as the office establishment of the Deputy Inspectors is too much overworked at present and it is impossible to give any more work to it
